

For sale and lease • 150 - 2.000 tons

Spare-cable Carousels

The basket can quickly be disconnected from the foundation with the drive unit. This allows for operating and keeping multiple baskets with cable loaded at hand for cable repairs, or long term storage, available for immediate use.

- Environment friendly
- No noise during operation
- No leaking fluids
- Long life

Outdoor and indoor storage

The complete carousel with content is lifted/transported in place for storage.

With basket placed on stands, the foundation and drive units are removed for other use.

150 tons

Max load capacity		150 m. tons
Design accelerations	(ULS): Vertical:	2,94 m/sec ²
	Transverse:	4,91 m/sec ²
	Longitudinal:	2,94 m/sec ²
Outside extreme diameter of carousel		7,00 m
Outer diameter of basket:		6,71 m
Inner diameter of basket (core dia.):		4,00 m
Height of basket above carousel floor		3,50 m
Volume of basket:		80 m ³
Weight of carousel:		15 m. tons
Weight of turret incl basket:		10 m. tons
Weight of foundation incl. drive unit and slewing bearing:		5 m. tons
Weight of EPU-container, 10':		3 m. tons
Arranged with lifting lugs for lifting the fully loaded carousel, i. e. up to max 165 metric tons lift.		

600 tons

Max load capacity		600 m. tons
Design accelerations	(ULS): Vertical:	2,94 m/sec ²
	Transverse:	4,91 m/sec ²
	Longitudinal:	2,94 m/sec ²
Outside extreme diameter of carousel		10,00 m
Outer diameter of basket:		9,75 m
Inner diameter of basket (core dia.):		4,00 m
Height of basket above carousel floor		4,00 m
Volume of basket:		248 m ³
Weight of carousel:		47 m. tons
Weight of turret incl basket:		29 m. tons
Weight of foundation incl. drive unit and slewing bearing:		18 m. tons
Weight of EPU-container, 10':		4 m. tons
Arranged with lifting lugs for lifting the partly loaded carousel, i. e. up to max 250 metric tons lift.
